European Employee Network Agricultural Machinery - Phase II

Continuing, deepening and **enlargement** of networking building and improving information, consultation and employee participation at the enterprise and sector level in the European agricultural machinery sector

Project Information

Prepared by:
Eckhard Voss, Wilke, Maack und Partner, Hamburg

Overview

- The application was sent to the EU Commission in April 2009
- Project description and work plan was coordinated with all partners
- Differences to 1st phase of the project (2007 – 2008):
 - EMF is now the main coordinator – there will be a close link to the EMF activities in the machinery sector
 - More project partners are involved now
 - Therefore the budget has been increased

Main activities

- Intensification of exchange and cooperation
- European sector report
- Further elaboration of the „European Map of Agricultural Machinery“
- 2 transnational workshops on issues of joint concern:
 - Effects and experiences of companies in the context of the global financial and economic crisis
 - „Good Work“ – Exchange of experience, development of joint positions and demands etc.
- „Future Forum“ as the final event
 - Focussing on project results as well as future challenges in the context of environment challenges, food, globalisation
